

Auto Choice: In this option, the investments will be made in a life-cycle fund. Here, the fraction of funds invested across three asset classes will be determined by a pre-defined portfolio (which would change as per age of subscriber). Table for Life cycle fund is given below.

NOTE:

Asset Class E- Investment in predominantly equity market instrument.

Asset Class C-Investment in fixed income instruments other than Government Securities

Asset Class G- Investment in Government Securities.

Table for Lifecycle Fund

Up to 35 years	50%	30%	20%
